   - NO  
   - YES (If YES, tear-off req’d per RCO/OBC)

### General information for Installing a Roof

- **Hot work activity:** Operations including use of welding, cutting, and roofing torches. **If performing hot work activity, a roofing permit will NOT be issued until you FIRST obtain a Hot Work Permit from the Shaker Heights Fire Department at 17000 Chagrin Blvd., 44120.** For more information, including to download the Hot Work Permit Application visit: [https://www.shakeronline.com/departments/fire-department](https://www.shakeronline.com/departments/fire-department)
- **Propane:** Use of propane for tar kettles or heaters requires a Propane Permit issued by the Fire Department.
- The information requested on this application is not meant to be encompassing of all construction types or installation methods. It is the responsibility of the applicant to comply with all requirements of the OBC (chapter 13 and 15) and RCO (806, 905 and 906).
- Residential roofs will need to supply sufficient roof ventilation per RCO 806.
- All roof coverings, vents, roofing material, underlayment, valley linings, base and cap flashing shall be installed in accordance with the manufacturer’s instructions. (RCO 905)
- Ice protection is required from the edge of the eave or soffit to a minimum of 24 inches inside the exterior wall line of the building. (RCO 905.2.7.1)
- All deteriorated sheathing shall be replaced. (RCO 906)
- **Two roof inspections are required; a Rough Roof (with ice and water guard visible), and a Final Roof Inspection. Failure to obtain a rough inspection will result in the roof NOT passing a final inspection.**
- Provide 1-3 business days advanced noticed for scheduling inspections.
